

Rhino UV Armor+ Surface Markers™

Fact Sheet
Part# CMR-

Rhino UV Armor+ Surface Markers™ are durable surface markers that can be permanently attached to almost any surface! Using the same next-generation printing technology as our Rhino UV Armor signs allows us to offer them in unlimited colors at no extra charge.

Description:

- Impact and scratch resistant surface marker
- Printed with UV stable inks on a rigid substrate, then given a polyurethane dome
- Customizable: unlimited colors, custom shapes and different sizes available for no additional charge
- Can be printed on reflective or non-reflective substrates
- Easily installed on hard surfaces with our industrial adhesive

Common Surface Applications Include:

- Curbs
- Valve Boxes
- Storm Drains
- Road Crossings
- Hand holes
- Bridge Crossings
- Pipeline Crossings
- Factory Walls
- Telephone/Power Poles

Generic versions shown. Custom versions always available at no extra cost.

**Limitless Applications,
Endless Possibilities.**
